

Club	Ft of Railing	# of Posts	# of Turnstiles	Turnstile Condition	ADA Gate Condition	Update
57	32'	5	2	good	does not lock	Turnstiles have been removed and are in the FT room. Railing and ADA still in place. CM would like railing removed. (DM told them to take it down)
59	36' 8"	10	2	good	does not lock	CM Cathy - Turnstiles, Railing, ADA gate removed and were placed in storage. All can be picked up.
60	18'	6	2	good	does not lock	CM Nathan - Everything still in place, they may remove the railing themselves, but they will set it aside. They want all railing, Turnstiles and ADA gate removed.
65	28'	8	2	good	good	CM Mike - Turnstile has been removed and placed in storage area. Would like turnstiles picked up, but wants to keep the railing and ADA gates in place.
67	10'	5	2	good	good	CM Denver - Turnstile arms removed, turnstile body is still there, railing and gate are gone, pick up turnstile bodies only.
80	16'	4	3	2 working, 1 not	no ada gate * turnstiles are not bolted down at this club	CM Chris - Turnstiles were removed (2 put under the stairwell in the back of the club, 1 between the coke machines at the front of the club). Railing still installed in the front of the club. Railings should be removed and everything can be taken. No ADA gate at this club.
84	26' 10"	10	2	good	push bar broken, hydraulic broken	CM Forrest - turnstiles have been removed but were placed in back hallway. Railing and ADA also taken down and is also in the back hallway.
90	18'	7	2	good	good	CM Jen - turnstiles removed, ADA gate and most of railing is still in, they want to keep the ADA gate and railing in place, they may move the turnstiles over to the storage area at club 101 because they don't have any room to store them.
91	8' 8"	2	2	good	good	CM Thad - Turnstiles and railing have been removed and placed in storage. ADA gate is still up. CM would like ADA gate removed, and all equipment taken.
94	28'	6	1	good	good	CM Khousha - Turnstile and railing are still installed. We need to remove both. There was never an ADA gate installed at this club.
95	24'	10	2	good * this club has the wider turnstile model	does not lock	District Manager Bobbi would like to get rid of everything except the railing between the front desk and the front doors. The railing over by the Cameron - would like to get rid of the turnstiles but keep the rest of the railing and the ADA gate.

Club	Ft of Railing	# of Posts	# of Turnstiles	Turnstile Condition	ADA Gate Condition	Update
101	20'	7	2	good	does not lock	CM Asim - They removed the turnstile arms and placed them in storage, but they still have them. The turnstile bodies, as well as the ADA gates and a small piece of railing are still installed in the lobby. We want to remove all of that equipment.
102	30' 6"	10	1	good	good	CM Brandon - railing and turnstiles are gone. Not sure where they are. No need for a pick up.
103	56'	11	2	good	good	CM Kirk - turnstiles removed and placed in storage area downstairs as well as removed most of the railing and placed it in storage. The few pieces of railing that are still installed they want to keep.
104	34'	7	2	1 good 1 not working	hydraulic broken	CM Mike - everything still installed. Remove it all.
106	12'	7	0	good	good	CLUB CLOSED! No Equipment to pick up.
107	5'	3	1	good	does not lock	CM Pace - ADA gate has been removed. Turnstile has been moved to the back of the club. Turnstile and gate should be picked up.
109	5' 6"	4	1	good	does not lock	SM Socorro - Turnstile is still installed in the lobby. ADA gate removed already. Just need to pick up the turnstile.
110	22' 1"	3	0	good	does not lock	SM Amy - turnstile was removed and transferred to the storage unit at club 167. No equipment to pick up at this location.
114	10'	3	1	good	good	CM Cameron - Railing is still in place but turnstile was moved to the back stock. CM would like to keep the railing and have the turnstile picked up.
160	18'	4	1	good	does not lock	Turnstile has been removed and placed in storage. Remove railing, ADA gate and turnstile.
167	39' 10"	10	3	good	needs a hydraulic closer	CM Greg - turnstiles removed. Some of the railing taken down and some of it removed. They would like to keep the railing that is still installed. This club should have 3 turnstiles, 2 from club 167 and one that was transferred from club 110.

Club	Ft of Railing	# of Posts	# of Turnstiles	Turnstile Condition	ADA Gate Condition	Update
178	1'	2	2	1 good 1 not	broken	District Manager Bobbi would like to get rid of the turnstiles, railing and ADA gate.
181	29' 2"	7	2	good	does not lock	CM Paul - turnstile arms have been removed, but base is still in place. CM would like turnstiles, ADA and railing removed.
191	44'	7	2	good	does not lock, hydraulic broken	CM Kevin - Turnstiles have been moved to the back of the club. ADA gate is still installed. District Manager (Bobbi) would like all railing, turnstiles and ADA gates removed from the club.
84	26' 10"	10	2	good	push bar broken, hydraulic broken	CM Forrest - turnstiles have been removed but were placed in back hallway. Railing and ADA also taken down and is also in the back hallway.
